Carl J. Braren.

Given Valuable Pointers.

At the request of Mayor Frost a deputation consisting of Councillor Vanhorn, Councillor Milnes and Superintendent Perry went to Calgary on Monday to see Engineer Turner Bone in reference to water works business especially in reference to the installing of the hydrants necessary to secure favorable consideration from the fire underwriters. Mr. Bone introduced the deputation to Chief Smart of the Calgary brigade who gave of his big fund of fire fighting knowledge abundantly. Mr. Smart not only showed the visitors the apparatus Calgary has but put the men and apparatus into action and showed in a practical way how a city does things. Mr. Smart also took the visitors around the city in the big new motor recently purchased by the city and showed them all the substations and equipment, the men giving an exhibition at these as well as at the main fire hall on Seventh Ave. Chief Smart showed them the different kinds of hydrants, told all about their workings and which has proved the most serviceable. He has also promised blue prints of a substation and suggestions as to the most serviceable for a town the size of Claresholm. That the deputation were pleased with the attention and information given them by Calgary's efficient chief was apparent by the enthusiastic praise accorded him on their return home. They picked up much valuable information which will be embodied in a report to council. Mr. Milnes is chairman of the fire committee and Mr. Vanhorn of the water committee.

Soldiers off to Camp.

On Tuesday morning the Alberta Rangers left for camp at Calgary. The men looked spry and again and donned a full and favorable account of themselves at camp. Meadow Creek boys came in strong under their leader and among their fifty men entailed here. The officers in command were Major Lyndon, Captain and Adjutant W. A. McEwan, Captain C. W. James, Lieutenant James Haslam and Dr. Leorn as medical officer. There was a fine representation from Pioneer Creek, nearly sixty strong. They were big fellows, all soldierly looking and perhaps the squadron which can boast of the most seasoned men. There were men who had served at Ashcroft, in the Northwest campaign, in South Africa and other engagements with the regular troops from the motherland. Macleod had a disappointing turnout, the muster roll being thirteen.

MEADOW CREEK NOTES.

Quite a number of our boys have left for Calgary where they will be under canvas for two weeks with the Alberta Rangers.

Mr. Bailey and family left for B.C. last Tuesday. They intend to go away up into the new part of the Province.

There was abundance of services on the Creek last Sunday, the Anglicans, Presbyterians and Methodists all holding meetings. The Methodists held their service in God's open air as the Anglicans were meeting in the school house.

The final meeting of our Methodist Missionary who has been here 11 months, will be held on Sunday next. Farewell services in the school house at 3.30. All heartily invited.

Mr. Fred Webster has gone on a business trip to North Dakota.

Miss Rankin who was for a while teacher at Meadow Creek and has lately been at Blainburg, leaves for Vancouver at the end of the month. We understand that she intends taking up Y. W. C. A. work at a while. We wish her success.

Mr. Kenneth Kingston of Iron Springs, Alberta, is to be Mr. Godman's successor on the Meadow Creek Methodist Missionary.

Alberta Methodism.

At the Sunday morning service Rev. A. B. Argue gave a resume of the recent session of the Alberta conference at Red Deer which was the biggest yet and which received such scant notice from the daily press of the province. The addresses before the school of theology were given by Rev. Robert Pearson and Rev. James Woodsworth. The addresses at the general session were delivered by Rev. A. B. Argue, Rev. W. J. Hagith, Rev. Principal Banner, Rev. H. H. Craig, Rev. J. A. Stellar and Rev. E. J. Tate. There were a number of young men ordained the ordination sermon being preached by Rev. Dr. W. J. Hunter, one of the best known Methodist divines on the continent. He celebrated the fiftieth anniversary of his entry into the ministry this year. Important among the changes was the creation of a new district in the south to be known as the Macleod district and made up of stations taken from Lethbridge and High River districts. The stations in the new district are Macleod, Rev. James Harrison, (chairman) Claresholm, Rev. A. B. Argue, (financier) Gramham, Rev. H. H. Craig, (s.s. sec.) Fincher Creek, Rev. R. E. Fincher, Frank, Rev. Thomas D. Jones; Meadow Creek, Rev. K. Kingston, and the other stations are Macleod South, Monarch, Navarre, Rocky, Coulee, Lumbrook and Fishburn. Rev. H. J. Goldman goes to Monarch and Navarre.

Carmangay and Barons are in the Lethbridge district. Rev. Prosper H. Neville goes to Carmangay. He is a married ordained man.

The growth of Methodism in Alberta during the past few years has been rapid. In 1880 the first missionaries, Rev. Mr. Hinden, was sent. By British Methodism and established a mission in this section of the prairie. The famous Mount Rundle at Banff is named after him. In 1880 the Toronto Conference appointed Rev. George Macdonald to take charge of the work in the west. In 1882 he established missions at Edmonton, Morley and Fort Macleod. In 1880 in what is now Alberta territory there was but one district and about twenty members. Now there are 15 districts, 200 ministers and 10,000 members in the Alberta conference. In recent years as 1900 there were only two districts, 13 stations and 334 members. The first Alberta conference was held in Calgary in 1883. The amount raised for missions for the year ending May 1910 was \$19,392 and for all purposes \$214,754 an increase of \$57,000 over the previous year. The total number of churches is 133, parsonages 77, and of course there are a large number of places where services are held such as school houses etc. The average giving per member was over \$20. In the giving membership considered Claresholm was high up in the list. Mr. W. F. Teskey was my delegate to the conference for Claresholm.

The Independent Grain Co

Important changes have taken place in connection with the Claresholm Lumber and Grain company of which the most important is the separation of the lumber and grain interests. The grain business has been taken over by a new company to be known as the Independent Grain Co. the organization of which took place last week. The company takes over the elevators now operated here and at Nanton and will this year build at Carmangay and Barons. The officers of the new company are President Peter Land; Vice president T. C. Milnes; Secretary Treasurer George Wilson; General Manager George Wales; Director William Barclay. The name of the lumber company will be changed to the Western Canada Lumber Co. as soon as the necessary procedure is gone through in connection with the companies act. Mr. Roach will continue as a manager for the lumber business.

HERES A CHALLENGE TO THE PROVINCE OF ALBERTA.

The above cut represents the finest two ear bulls of cattle and the highest priced ones too, ever shipped out of the province of Alberta. Sounds big doesn't it? It's a fact though and there isn't a word of exaggeration in it. The eight bulls, head chaps and other cutouts are to be marketed to satisfy Mr. Dauter. The cattle were shipped from Claresholm, by a Claresholm firm and were raised by a Claresholm rancher. The cattle were of the farm of A. E. Hunter, were bought by Price and Wallis and sent to the British Columbia Meat Co. of Vancouver. The bunch of cattle averaged 1500 pounds each and there were 12 head, all young steers three years old. If any other section of

Alberta can excel this, now is the time to speak out loud. Messrs. Price and Wallis ship out a large quantity of stock every week, making Claresholm their headquarters, and sometimes buying at Red Deer. They pay out on the average, \$3000 a week for cattle and \$2000 for lambs and the cheques total about \$30,000 monthly. They have a fine reputation among the farmers and ranchers for fair dealing and that is the secret of their success. Mr. Wallis says that the day is coming when instead of shipping out cattle they will have to import them for domestic trade. If this prediction proves true it will be a bad day for Southern Alberta. The

farmers should go in for mixed farming. In the year that the crops are slim the stock makes an excellent source of revenue. Price and Wallis pay cash for all live stock and have the proud boast that they don't owe a farmer a dollar to day. With cattle selling at 10 to 15 cents a pound according to quality it certainly pays the farmer to raise them. The above cut is published with pleasure because it shows that while leading as a wheat centre the Claresholm district is well to the front in cattle raising. Price and Wallis besides doing such a big wholesale trade have also one of the best retail stores in the South, known as the Central Meat Store Claresholm. For good meats the Central leads.

gets from school boys. The score by innings was.

Claresholm - 3-0-1-1-3-0-1-1-10
Graham - 0-3-0-0-0-0-4-0-1-2

The teams were Claresholm - Miller, W. Clark, B. Hing, S. J. Thomas, Miller, L. Clark, Bertrand and Caldwell.

Graham - Clark, Boyle, Scott, Lawton, Quirk, McLaughlin, Cumming, Kellison, Long and Lyle Cumming who replaced Scott.

Mr. Howland accompanied the team also a number of the fans from the higher grades who proved to be worthy fans. It was a pleasant trip.

Items of Interest

By a Disc Harrow that follows the unevenness of the ground, and you will say a Massey-Harris.

There is talk of a third party in Alberta. It will not amount to much.

The Disc Harrow that cuts best, lasts longest, rides easiest, ploughs most, is the famous Massey-Harris.

The Montreal Herald building was wrecked by a falling water tower and about twenty lives lost.

Massey-Harris Binder is considered the best of the world's offers.

The Anglican Synod of Alberta convened in Calgary this week.

The farmer who is careful and cautious buys a Massey-Harris Binder because it lasts longer, rides better and is safer than any other make.

Sam W. H. Cushing has left for Edinburgh, Scotland, where he will be a delegate to the world's convention.

Iowa for corn, Alberta for horses, and Massey-Harris for binders, are the world's leaders.

Over two hundred lives were lost in a flood which swept the Alver river valley, France.

Look at the Massey-Harris Binder. Best, severest adjustment.

Moses Pukelstein of Winnipeg was fined \$5,000 and Ben Lewis \$8,000 for defrauding the government in Wolf bounties. Both fines were paid.

Look at the Massey-Harris Binder. Strong, built like a bridge. The strongest made or the machine for nothing.

The C. N. R. has reached Stettin on its way to Calgary. It cannot come south until Calgary is reached and it will be well into 1911 before anything is doing this way.

Massey-Harris "Alberta" Mower, light, strong and durable.

Two poles were killed in the mines at Fernie this week by a falling scaffold.

Massey-Harris steps to the front with their Alberta Special Mower.

All pecuniary claims between Britain and the United States have been settled by a treaty signed this week.

For easy draft the Bain Wagon is the favorite.

Bain Wagons are oil soaked, thus water-proof. 6-2-7

No Disordered Kidneys

or a Weak Bladder If You Take a Few Doses of

FIG PILLS

All backache and distress from Out-of-Order Kidneys or Bladder Trouble will vanish, and you will feel fine. Lame Back, Painful Urination, Stiffness, Nervous Headache, Dizziness, Sleeplessness, Worn-out, Sick Feeling and other symptoms of Sluggish, Inactive Kidneys and Liver disappear. Smarting, Frequent Urination and all Bladder Trouble ends at once to the disordered Kidneys, Bladder and Urinary System, and complete cure before you know it. There is no other remedy, at any price, which will effect so thorough and prompt a cure as a 25-cent box of FIG PILLS. Only one bottle can come from taking FIG PILLS, and a few doses mean clean active, healthy Kidneys, Bladder and Liver—and No Backache.

For sale at all first class drug stores, 25c a box, or five for one dollar. Johnston Drug Store, General Agent.

Claresholm Turf Association, Ltd.

Have you tried a pound yet?

GEORGE BARBER

Baker, Pastry Cook & Confectioner. Claresholm, Alta.

SPORTS

Amateur Ball

This morning the Claresholm baseball team re-considered the decision arrived at last night at the league meeting and decided to abandon professional ball. The officials say the financing is too heavy and the paid players make no pretence at giving value for the money never turning out to practise. Claresholm boys will now get a chance to play ball. An excellent amateur team can be formed. The Review is authorized to announce that the first amateur game will be played next Wednesday afternoon with some team north of town. It was hoped to get on a game with High River but is doubtful owing to the excursion to Banff that day. High River will be here long. There are good teams at Calgary and Portland and other places. This decision leaves only Granum and Macleod in the league. A meeting is called for this Friday night in the council chamber when the officers of the present club will hand in their resignations and steps will be taken to organize the amateur club. Every one attend.

Oh! You Granum Kids

When Granum hit the bottom with such a third in the League it was apparently only to rebound towards the top with lightning accuracy. The team has struck a winning goal and further demonstrated the fact by coming to Claresholm on Wednesday and in the presence of a large crowd putting it over our boys to the tune of 8 to 4. It wasn't a fluke either. It can't be explained away. We were LUCKED.

It was Ardell's day off. He didn't pitch his usual game and if he did, he hadn't been fairly good the score for Granum might have been higher. He was hit freely. Perhaps some line day when it is too hot the players will tumble to the fact that it is good

tactics to get out and practise once in a while. An official is responsible for the statement that yesterday was the first time Claresholm nine handled a ball since the Staveley game and he wasn't very well pleased over it either. Granum had a swell pitch and the only objection that could possibly be hurled against him by a newspaper man being the brain twisting job it is to spell his name. He was well the name Englishman and his pitching is as hard to hit as the name is to spell. He throws a swift ball a little too high for hitting and that is where he caught the home boys.

Rae held the bat was up to snuff alright and also added to his credit a sweet two bagger which scored two runs for Granum. It was a pretty hit. The game started off in a spectacular way for Granum. Mr. Greig was first man up and what did he do but knock the first ball through to the right garden for a neat home run. That run wasn't in doubt for a second and put out the Granum boys in great fettle. The first innings ended with three runs to Granum and the other two being pre-empted tower throws by the pitcher.

Granum got two more presents in the third, earned a run in the sixth and then came two bagger in the ninth totalling up the eight. Claresholm got the first run in the third Ardell working around the bases by good running and stealing in from third on an over throw. Our next in the fourth when Greif knocked out a swell two bagger and let a man in. In the eighth we got two more runs due to balloon tactics in the field and we dropped their our little sum in addition making four.

More pretty hits.

Fast victories don't assure future triumph.

Claresholm was lamentably weak at the bat. There was no exception. Harwood who pitched for Calgary in 07 played second base for us and was responsible for two of the hand out runs.

Willard played a consistent game under trying circumstances.

Price had down first to the king's taste.

Mr. Brown of Macleod was umpire and it cannot be truthfully said that he gave entire satisfaction in his decisions on balls and strikes. Rae was a frequent objector and it cannot be denied he had right on his side. Brown gave one funny decision in calling a Claresholm man safe who

dedged in making first base. It used to be sufficient for the pitcher to cross the line. When was the rule changed?

Here is our distinguished opinion of the game. If Claresholm would practice as it should the two teams would be fairly well matched.

Granum's think Claresholm is sore. We don't expect to win every game.

A Game Worth Seeing

In what was a much more interesting game than many of the senior teams have put on in a high wind the Claresholm school team worsted the Granum boys 10 to 8 on Saturday afternoon. It was a decidedly interesting game to watch and was keenly contested to the end. The Granum boys have improved wonderfully since they played here and are a nice worth playing with. Both teams are composed of young gentlemen and the best of good feeling prevailed. There wasn't a dispute from beginning to end between the boys and after it was all over chumming was the order of the day. The score would have been expressed in smaller figures had the day been favorable. Roy Soby pitched the first six innings for the victors and his double curve was quite a puzzle to the Granum boys. When he gets strength in that right arm of his Roy will rank with the best pitchers. Lester Clarke pitched the remaining innings and as usual sent a fast ball over the plate.

For the Granum team little Mr. Boyle pitched for an inning and was replaced by Lester Quirk who doesn't believe his name. He is the maker of a league player. Carl Milnes caught for Claresholm and Master Lawton for the home team. Art Miller on first played an errorless game and the Granum first bagger was also good. All the boys fielded well, considering the fierce wind and the Granum league players who were among the spectators passed along lots of compliments for both teams. Mr. Cronin of the Granum team was the choice for umpire and he justified the confidence the boys have in him. He is full of experts and as square as a board. He is very popular with the Claresholm boys. After the game the Claresholm players were the guests of Mr. and Mrs. James Cumming who treated them to ice cream which needless to say got the reception it deserved usually.

Clareholm Review.

ESTABLISHED 1904.

Printed and published weekly
at Clareholm, Alta.

No 50 per year. Single copies 5c.

T. W. QUAYLE, Editor.

Clareholm's water service is now in a position to do business and it would appear to be the duty of every citizen to do what he can to make the service a success. The council will likely adopt a policy aiming at the doing away with the water delivery service at the earliest possible time. The service has been the best that could be got and as such was tolerated. It has been a heavy expense and never came anywhere near paying its way and has been the source of more domestic unpleasantness than any thing else in the town. Besides all that it is very unsanitary and a menace to the health of the people. Water in barrels exposed to dust and flying particles could not be other than a menace to health and a money maker for the doctors. The council should however give householders a reasonable time in which to make connection with the water pipes for it is a contract that cannot be carried out in a month or two. Give every one a reasonable chance and then stop the delivery service. No few could hope to rely on the town to maintain an expensive and unsatisfactory and unwholesome delivery service simply because they did not wish to connect their house with the mains. Reasonable investigation will prove that the house connection will save money for not only will the water not cost any more but there will be no limit on the supply. Of course it will be the duty of council to extend the mains as rapidly as possible so as to bring the water within reach of all.

Western Progress is the name of a little paper issued by the land department of the C.P.R. and it is chock full of interesting items. The new towns are getting lots of advertising and the C.P.R. is quite willing to give the owners a fair deal. It is designed as all C.P.R. undertakings are, to be decidedly practical and aims at attracting capital to the west by announcing suitable business openings. Clareholm board of trade could use this publication to advantage and it wouldn't cost any thing. If the board had better not touch it. The funds for the board are rather limited. The editor asks in the current issue for the business slogan of the towns such as "Wetaskin the elevator city". Saskatoon happy because its people are prosperous etc. What is Clareholm's slogan? Is it "Clareholm the wheat centre of Canada"? If the editor wishes to do Clareholm a favor he might mention that this town offers an excellent opening for a flour mill.

The election in Macleod has been deferred until after the new ministers are sanctioned or rejected by their constituency. That seems to be a wise policy for a premier who has a seat in the legislature could speak with considerably more authority than one who didn't know whether there was a riding in the province would excite him or not. There will be a contest in Macleod. There will doubtless be a Liberal in the fight and as Mr. Patterson, the Farmers candidate, has been a life-long rustler and hard worker for the Conservative party he will no doubt be quite acceptable to that party under the guise of a farmers candidate. There will be an interesting contest in Macleod with the betting even.

James Holden of Vegreville one of the Cushing Liberals appeared on the platform with Premier Brown as having this evidence that the Liberal arguments were willing to lift the new premier every opportunity to lift the Liberal party from the "side" and would it into one individual whole. Mr. Holden didn't go to the point the premier took to state that the A. & G. W. agreement had to be lived up to that the interests of the province come first. There should seem to be much doubt but that the new premier will see to it that the road is built on modern lines and as such is a credit to the province. It must be remembered that there is no disposition to building a road. It was a "close of road" that all the row was about.

Sir Wilfrid Laurier is seventy years old or will be next November. He is going to take a jaunt across the continent and a program has been laid out which would tax the energies of a younger man. He will doubtless receive a hearty welcome from all parties because however men may differ on principle they are one in admiration for the man of spotless character who has lifted Canada into a place of pre-eminence among the colonies of the empire.

The Calgary Herald finds in the removal of Howard Douglas, inspector of parks, from Banff to Edmonton an opportunity for an attack on the Hon. Frank Oliver who is described as trying to please Edmonton. Wherein the removal of Mr. Douglas is going to add to the development of Edmonton the Review cannot see beyond adding one or at the most two families to the population. The Liberal cause in the riding of Calgary will benefit by the removal of every one connected with the last federal campaign jolly well knows. The Herald should look for some thing larger on which to base an attack on Mr. Oliver. But perhaps, it would look in vain and the little issue will serve for the campaign purposes in Calgary.

To Horsemen and Farmers

Mr. John Robertson announces that his Percheron Stallion Selim Jr. foaled 1906 and the trotting bred Stallion "Nibs" by a grandson Nutwood, record 2.18 1/4 will stand through the season at the Turf association grounds. These Stallions are recommended to farmers desirous of good stock. Terms \$12.50 to insure. Owner not responsible for accidents etc. For further information call on John Robertson, Box 111 Clareholm.

Chickly Claresholm

Miss Kingsley is visiting friends in Vancouver and New Westminster, B.C.

Mrs. C. J. Bruno has gone on a month's visit to Great Falls, Montana and Spokane.

Mr. R. A. Wallace ex-M.P.P. High River was in town on Monday on a business trip.

Mr. F. Gerard is in Carmangay relieving Mr. Fraser of the Bank of Commerce who is ill.

Miss Hood returned from the W.A. convention on Saturday and reports a pleasant and profitable time.

The name of the post office at Novaquarries in the Claresholm riding has been changed to Staunton owing to the name Nova duplicating eastern post offices.

Mr. H. F. Kenney of the Alberta Sunday School association was in town this week to make further arrangements for the big convention to be held here July 13 and 14.

It only takes a mild jolt to get the officials moving. The inspector has got busy at Barons and as a result the town will soon have a school. Murphy for the inspector.

Mr. Taylor, the High River contractor arrived on Monday and on Tuesday had a gang at work on the excavation for the Milnes and Noble block. There will be 1200 feet of plate glass in the block.

The annual excursion to Banff under High River auspices is announced for June 22. The train leaves Claresholm at 5:20 a.m. and reaches Banff at 12:10 returning at 7 p.m. giving seven hours at the famed beauty spot of Canada.

The Presbyterian Church ladies Aid society has commenced making arrangements for the annual Flower show which will be held as usual in August. Those who take an interest in horticulture should make a note of this and plan for the exhibit now, it's not too early.

There is a rumor that the Machod syndicate owning the Nova quarry have sold to a Lethbridge syndicate at a handsome figure. Stone is being taken out for the Lethbridge court house and the Legislative building at Edmonton. It is a fine white sand stone. About sixty men are engaged at the quarry.

The school baseball team are fitted out in navy uniforms and that the boys appreciate it goes without saying. It gives the town some appearance on the field and also puts heart into the boys to know that they are appreciated. The uniforms are the gift of Mayor Frost, Ex Mayor Moffatt and Dr. Stevens. These three gentlemen may consider themselves selected honorary patrons of the Claresholm school base ball team and it is a team that wins.

Evans Tucker who has been doing a thriving practice in the medical line here was arrested by Mr. Hanna formerly of the R. N. W. M. P., on a charge of attempting to procure an abortion by the use of drugs. He is alleged to have treated a married woman working at a Claresholm hotel for the purpose. He appeared before Magistrate Canine on Saturday and was remanded for eight days to the barracks at Machod.

Mr. Henderson of Sturley was fined \$10 and costs by Magistrate Canine for violation of the Foreign Companies act in selling stock for an unregistered company. Mr. Langmuir appeared for the defendant and quoted authorities to show that selling stock is not the regular business of the company hence there was no offence alleged. He quoted a ruling of a justice of the supreme court of Saskatchewan to uphold his contention but the court ruled that the act was for the protection of the public and he considered that as such the offending company should be registered.

The school board are going to make another try for a curfew bylaw and the secretary will send the town council copies of a petition which it is said should be signed by half the ratepayers with a request that they be circulated for signatures and if the necessary number is secured the council to implement its resolution favoring the bylaw by passing the necessary legislation at once. As the petition is called for all children under sixteen being in the house after nine o'clock during the summer and eight o'clock in the winter there will be no serious opposition to the proposed bylaw.

Mr. W. G. Moffatt was in Carmangay on Monday.

Price and Walls of the Central Meat Market announce that they are going to introduce the cash system starting Monday next June 20th. The firm hopes that no one will take offence at the change and promise an even better service in the future. The move has been made necessary by the fact that the credit system is filling the books with a large number of accounts and effecting the financing of the business. This firm pays out \$80,000 a month to farmers for cattle and hogs and pays spot cash. To do this it is necessary that the credit business should be eliminated and to give the farmers a fair deal they have decided to introduce the cash system in their retail trade. Customers would facilitate the change by bearing these facts in mind. Cash system goes into effect on Monday next.

Do You Get Good Milk

Mr. Fred Anderson of the Prairie View dairy announces a reduction in the price of butter to 25 cents a pound. This is for nice fresh butter. Milk six cents a quart delivered and the price guaranteed on each morning's milk and sanitary basis. Call up Fred Anderson and give him your patronage. He guarantees satisfaction.

Calgary Exhibition

The exhibition grounds at Calgary is now a very busy place. A small army of workmen are making the repairs and preparing the exhibits for the Provincial Exhibition to be held June 30th to July 7. All available space in the buildings for industrial exhibits has been secured some weeks ago, and a number of exhibitors have to be content with tent space. Entries close at Calgary June 18th. The forestry plantation immediately in front of the main gate was prepared and trees planted about the middle of May, and each succeeding year will be a living demonstration of what can be done in tree planting on the plains. What the exhibitors are doing are providing that education features and exhibits shall be the most of the most for visitors, they also believe that they like some dessert in the form of good music and attractions, and the following list of features of the best quality cannot help but cater to the various tastes and fancies of our numerous visitors. The National Ladies' Band, based in the world, assisted by the Calgary Rifle Band and the Calgary Citizens' Band. A reproduction of the making of the treaty of 1870 illuminated with magnificent display of fireworks. A \$7000 racing programme. Albert's ten snow white polar bears, Rex's Comedy Circus. The Six Abdullas Brothers, marvellous acrobats. Rom and Arno, clever comedians. The only Rubie Shields, the fun maker. Demonstration by the Calgary Fire Department with specially trained horses. Do not forget that entries close on June 18th. Very low passenger rates. Six or seven special trains on the exhibition, and a special excursion to Banff on July 7th. A handsome illustrated pamphlet giving information regarding the exhibition will be sent by return mail on application to the manager at Calgary.

Notice of Dissolution of Partnership.

NOTICE is hereby given that the Partnership heretofore subsisting between the undersigned as Livery Stable Keepers in the town of Claresholm, Alberta, under the firm name of "Wilson & Pratt", has this day been dissolved by mutual consent. The said business will hereafter be carried on by Frederick E. Gibson, by whom all debts of the old firm will be paid and to whom all the outstanding debts due the old firm are to be paid.

DATED at Claresholm in Alberta this 8th day of June A. D. 1910.
F. E. Gibson, L. M. Pratt
Witness: Fred Langmuir.

GREAT FORTUNES IN CALIFORNIA OIL

More Men Have Amassed Wealth from Oil Investments than from Any Other Securities

THIS advertising announcement will appear in this publication but once. It contains a message for men who have money to invest, in small or large amounts, in a proposition which at the same time, embraces the maximum amount of security for the money invested, and promises greater profit than any other form of investment in the Western field.

If you will take the time to review the history of the oil fields, both in the Eastern and Western portions of this Continent, you will find that the men who have amassed fortunes are the men who invested originally very small sums of money in oil shares.

Do you know that \$100, invested at the inception of many an oil company, frequently multiplied in profit and actual worth, until the holding today represents from \$1,000 to \$15,000.

Take for instance, if you had invested \$100 in the following companies, on the following basis, you would have made:

Silver Tip.....	\$ 600
W. K.....	1,000
Sterling.....	1,000
Premier.....	1,100
Monte Cristo.....	1,100
Record.....	2,000
S. F. & McK.....	2,400
Saunderdough.....	4,166
Lucile.....	5,000
San Joaquin.....	5,700
Peoples.....	6,360
Kern River.....	9,500
Central Oil.....	15,000

"Pinal" shares sold at 25 cents, they are now selling at \$25 and paying monthly dividends of 15 per cent, an income of \$60 per month on an investment of \$100. When the "Silver Tip" came in, the stock jumped overnight from 66 cents to \$4 and has been paying dividends of 10 per cent ever since.

Similar opportunities are open to you, but you must think for yourself, have the courage of your convictions and act.

Coalinga is a district situated in the state

of California, which is now so generally known as the great producer of high grade petroleum that it is unnecessary for us to take up much space in describing the geographical construction of the field, or the actual results of operations of the many companies who control property in Coalinga.

This Company, The Coalinga-Eureka Oil Company, Inc., is a limited liability corporation, the shares of which are non-assessable, and have a par value of \$1.00. As development progresses, the price of stock will naturally advance. Even now trading in Coalinga-Eureka shares is very active. The limited block to be sold at 25 cents per share should, we estimate, be taken up on or before July 16th. We have therefore set this as the closing out date for the unsold shares in this Company at 25 cents each.

This means that it will be impossible for you to buy a share in this Company at 25 cents after July 15th, 1910, and we give this notice that the price of stock will be advanced to at least 50 cents on the morning of July 16. Should there then remain any portion of the block at 25 cents, the same will be immediately withdrawn from the market.

Stock May be Advanced Any Day

The Company reserves the right to advance the price of shares at any time prior to

July 16th, should the block of 100,000 shares at 25 cents be taken up in the interim.

We have recommended our most intimate friends to reserve their stock by wire, and not delay in writing by mail. On receipt of the reserve order, we will immediately set aside such stock, allowing the applicant the necessary time for the remittance to reach this office by mail.

The very fact that the stock of this Company will be sold for 50 cents on July 16th, should warrant the reader in reserving by wire as many shares as possible forthwith.

You will readily see if you purchase a block of 500 shares today, on easy terms, at the present price, 25 cents per share, you could sell one-half of your holdings when the price advanced to 50 cents and thus have the other half free of cost to yourself.

The trading in the stock of this Company will naturally be more active when the price is 50 cents than at the original price, 25 cents.

There is every indication of the stock being worth and selling for \$1 in 90 days time. Do not delay in making your application.

No application received for less than 200 shares.

The stock may be purchased on an all-or-no basis, in which case certificates are issued at once, or on an easy payment plan, as per schedule herewith:

47.50 will buy 200 shares.....	par value \$ 200	237.50 will buy 1,000 shares.....	par value 1,000
118.75 will buy 500 shares.....	par value 500		

Instalment Plan

20.00 cash and 15.00 a mo. for 2 mo. buys 200 shares	50.00 cash and 37.00 a mo. for 2 mo. buys 500 shares
30.00 cash and 22.50 a mo. for 2 mo. buys 300 shares	100.00 cash and 75.00 a mo. for 2 mo. buys 1,000 shares
40.00 cash and 30.00 a mo. for 2 mo. buys 400 shares	

Write for our free Prospectus and Booklet "Fortunes from Oil."

In conclusion, make your reservation at once, remitting for stock by check, draft or money order.

Make all cheques, drafts and money orders payable to

G. L. TASCHEREAU, Trustee THE COALINGA-EUREKA OIL COMPANY, Inc.

Selkirk Block, 135 Hastings Street, Vancouver, B. C.

Porter & Hagerman

An Old Timers Story

(Continued)

"Good day sir, I think I—Think I—It looks like you would think not to tramp that there bay into the ground 'please excuse me' I said and rode away. About three hundred yards from there I saw a camp, tents, wagons etc. I rode up and saw a man with a baby about six months old. I asked her if that man cutting hay was her husband, she replied yes, so I am only working for him. I told her she had better run up and tell him that the Indians are coming. Oh no she exclaimed, take me with you, please take me! Again I told her she had better go and tell him that he could take her in the wagon, she said no he will not believe the report. Oh please don't leave me and my baby here to be killed. She had beautiful red hair and my heart went out to her at once. I mounted her on my horse that had the saddle on, while I climbed on the other bare back. The first thing he did was to lay my head on his neck and he said 'I am a soldier and I am not afraid of you.' I told her she was on, put it on my horse and made a larkman for her. I again mounted, this time with better success. But she had never rode a horse before and was about as handy with a horse as a boy with a musket. The horse turned around and she dropped the baby, she attempted to climb down and the horse kicked her. I was anxious to be away from here, so I assisted her to mount again and we made a start. I leading her horse. We had to ride in a walk she not being able to ride faster. I kept a lookout behind for Indians or, what I feared more, was that, that man would follow and kill me for robbing him of his wife. We rode about five miles, in as many hours (I thought) when we heard the sound of a wagon. At the rate it seemed to be going, it would pass the junction of the two roads before we reached there.

I cashed her and my extra horse in a plum thicket, so I could stop it a wagon. I told her to be very quiet while I went to stop the wagon. Oh you all won't leave me you'll? I assured her I would not. When we dismounted I could hardly stand or walk. She was also quite lame from the kick she had received. She showed me where the horse kicked her. I told her to remain quiet until I came for her. I then went to head off the wagon when I came in sight of the wagon a pitiful sight met my gaze. I beheld a small man about fifty years old, hair hoisted, standing erect in the wagon with a pole about six or seven feet long beating one horse, the other having played out. In the wagon was a man who had been killed and scalped by the Indians, the corpse almost bounded over the sides of the wagon box, as it bounded over the boulders. When he saw me he screamed 'where are they, where are they?' I assured him that there were no Indians near; he again shouted 'They have killed my poor old brother!' I told him of the woman and also told him to wait there while I went for her. I had gone but a short distance when I heard the noise of the wagon. I again stepped him told him not to move again until I returned with the woman and baby. I got about half way when he started again I over hauled him, talked Dutch French and Spanish all at the same time. I told him if he moved the wagon again, while I was away, I would leave him and his brother in a gulch. I then went to the outrageous I found my future happiness had fled.

I took my other horse and started after the wagon which was again on the move. As I rode ahead of the team, I saw a shiny object in the dust, made by number 7 shot. I rode ahead and just got a glimpse of her going into the brush about a quarter of a mile ahead and about the same distance from the road. I found her, told her to come to the road while I over hauled the wagon. To be continued.

Oil Fuel For Battleships

San Francisco Cal., June 13.—The advantages of oil fuel have been subject of exhaustive inquiry and exhaustive inquiry and experiment by British and American experts.

An extensive fleet of smokes which was fitted up near Portsmouth, England, and experiments carried out with various boilers, systems of firing and mechanical stokers, while further trials were made in local battleships and destroyers. According to the New York Herald's naval correspondent, the great objection caused by the excessive amount of smoke which poured from the funnels of vessels at previous trials, has been eliminated. "At present," he writes, "it may be said that with the consumption of oil fuel there is almost complete freedom from flame and smoke at the funnel, even when the boilers are pressed."

The importance of these experiments is obvious. If oil can be used without revealing the presence of vessels by smoke, the only objection to its use by battleships has been removed. The comparative economy of oil over coal is unquestioned. It is proven sixteen tons of oil is the equivalent of twenty five tons of coal, that it is converted an equal amount of water into steam, at a saving of several dollars per ton, ton for ton. The stokers' work would be lightened the least in the stokehold reduced, and an avoidance of the dirt and discomfort when furnaces had to be fed. Moreover, the laborious work of coaling ship would be supplanted by the far speedier and easier work of fueling and pumping. The ease with which liquid fuel can be transferred from one vessel to another is essentially in favor of oil.

Mrs. Anderson

Tells How After Giving Up Hope,

She was Cured of Dandruff

After reading this straightforward statement of Mrs. Elizabeth E. Anderson, of Mechanicburg, Pa., go to O. L. Ralnsack, get a large bottle of Parisian Sage for only 50 cents, and if it don't do for you, what it did for Mrs. Anderson, he will give you your money back. Just read this letter, it's worth your while.

"I had given up hope of ever being cured of dandruff, when I purchased a bottle of Parisian Sage. It has cured my dandruff, and has started a growth of new hair, and all this after having been troubled for 15 years. I cheerfully recommend Parisian Sage."

Parisian Sage cures dandruff, because it gets right down into the roots of the hair and kills the thousands of pernicious dandruff germs. Since the introduction of Parisian Sage into Canada, it has been in demand by thousands of up-to-date society women. Parisian Sage will turn harsh, listless, thinning hair into bright, lustrous hair in few days. It is a delightful and invigorating dressing, contains no dye or harsh ingredients and does not dry or grow. The girl with the Auburn hair on every page.

To The Public Generally

Having bought the Economy Feed Stables and Draying business from Mr. W. C. Burnham I am arranging to enlarge the facilities and carry on the business on an extensive scale. I will conduct a feed and sales stable second to none in Southern Alberta and farmers in giving me their patronage will have the assurance that I know how to care for horses and use them right.

The livery department will be equipped with the best of vehicles and the speediest of road horses. Travellers and others can count on a most satisfactory service.

I will continue the draying business so well built up and hoped by prompt attention to hold all the present patrons of the service and gain many new ones.

We are arranging to install a stock yard and weighing scales and will soon make an announcement of interest to the town.

A. E. Hunter.

Palace Livery, Feed, and Sale Stable.

Frost & Wood No. 3 Binder Has a Strong "Back Bone"

The Frost & Wood No. 3 Binder is built to stand more hard knocks than a binder is commonly supposed to encounter. Striking a boulder or bumping over rough ground does not affect this binder. That's because the binder's back bone consists of heavy pieces of steel firmly riveted together and because the platform is connected to the main power frame by a double steel bar. It's the quality in material and workmanship that the makers put into the Frost & Wood No. 3 Binder that enables it to give three to five times as many years of service as ordinary binders.

We would like the privilege of showing you the construction of this binder. Then you can be your own judge as to its strength. We would also like to point out to you the Advantage of the Eccentric Sprocket Wheel, which is found on no other binder. This Eccentric Sprocket Wheel makes easier, more compact, easier-to-shock handles and discharges them faster than ordinary binders. We also wish you to see the No. 3 Monitor, which never hesitates an instant, no matter how hard and fast you ask it to work.
